## DETAILED ACTION

### Claim Objections

Claims 1-13 are objected to because of the following informalities:

Claims 1-13 presently read as "... a first peripheral area, a second peripheral area, a third peripheral area, and a fourth peripheral area;" It appears that it should have read "... a first peripheral area along a first side, a second peripheral area along a second side, a third peripheral area along a third side, and a fourth peripheral area along a fourth side;" Therefore, for the examination purpose, claims 1-13 will be interpreted as "... a first peripheral area along a first side, a second peripheral area along a second side, a third peripheral area along a third side, and a fourth peripheral area along a fourth side;" and have been examined accordingly.

Appropriate correction is required.

### Allowable Subject Matter

Claims 1-13 are allowable if rewritten to overcome the minor informalities as mentioned above.

The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious a display panel with an integrated driver circuit comprising:

Art Unit: 2871

- a liquid crystal injection hole disposed on the fourth peripheral area of the array substrate;
- a first driver circuit disposed on the adjacent edge of the first peripheral area and the second peripheral area of the array substrate;
- a second driver circuit disposed on the third peripheral of the array substrate and part of the first peripheral area where the first driver circuit is not disposed on.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

This application is in condition for allowance except for the following formal matter:

- Appropriate language correction in claims 1-13, as mentioned above, required:

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
